

Seminar 2025 | Global Healthcare Business Expansion Seminar Thailand's Public-Private Medical Partnership

Global Healthcare Business in Thailand

This seminar marks a significant milestone in the establishment of Medical Excellence Thailand (MET) and serves to further strengthen the long-standing relationship between Thailand and Japan. Supported by the Economic Research Institute for ASEAN and East Asia (ERIA), Medical Excellence Japan (MEJ), and the Ministry of Public Health of Thailand (MOPH), the event will feature valuable insights from Thailand's healthcare policymakers, private sector leaders, and innovators, tailored for the Japanese audience. Your participation would be greatly valued.

Objectives

- Explain/Introduce ME Thailand to Japanese industry
- Share why Thai healthcare market is a great option for global expansion

Thu 30th
